

Wholesale Acquisition Cost for Colorado Prescribers
ZEVASKYN® (prademagene zamikeracel)

Colorado law requires prescription drug manufacturers to disclose in writing to Colorado prescribers the Wholesale Acquisition Cost (“WAC”) of a prescription drug when engaging in prescription drug marketing and the names of generic prescription drugs available in the same therapeutic class as the marketed product.

The price listed below is the WAC price as published by First DataBank. WAC prices are representative of the manufacturer’s published catalog or list price for a drug product to wholesalers as reported to third-party drug pricing publishers, not including prompt pay or other discounts, rebates, or other reductions in price. The actual price paid by consumers may differ from the WAC price listed below and will depend on the patient’s insurance coverage.
